Aoyama Campus

*"Seven Days without  
exercise makes one WEAK"  
- Unknown*

This is Aoyama campus. It is in Shibuya Ward, Tokyo. Aoyama campus has 3 schools in one place: Shoto & Hiroo JHS, and Jinnan ES.

English wall

I am the lead 2nd year English teacher and help teach P.E. I wanted my students to interact with English outside the classroom, so I made an English wall on the 3rd floor. It has articles, puzzles and a monthly board with different topics. I try to change it every month.

### FUN FACT

#### sports corner ◀ ▶

Judo was created in Japan in 1882 by Jigoro Kano. The word "judo" means "the gentle way". Judo is now an Olympic sport and is practiced in many countries around the world.

Volleyball was invented in 1895 in the United States by William G. Morgan. A volleyball can travel faster than 130 km/h during a professional spike!

P.E. class is also exciting. Currently the students are learning to play volleyball with Mr. Terasaka and Judo with Mr. Katsumata. I can see my students practice sportsmanship and teamwork. Sometimes they use English during class. It makes me happy when students try to use English naturally.
